The *Motor Hotel* has the BIGGEST BEDBUGS in Town!

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

* * *

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

Act now! Arrange for your Ad to appear in our next edition.

WANT TO SELL NEW-COMERS?

To a new-comer the city directory is the new home town. It is the only complete guide to everything and everybody in town. Who is who?, what is where?, which is closer?, who sells what?, are just some of the hundreds of questions for which new-comers look to the city directory for answers.

Often they have explored their new home town in advance by using the city directory in a library where they were leaving.

MONARCH LIFE INSURANCE COMPANY

Monarch Capital's Principal Subsidiary

Provides Lifelong Financial Security Through

HEALTHSPAN℠

Many hazards threaten your income—but none is more destructive than disability, not even death or old age. HEALTHSPAN, a new Monarch service, was developed to minimize the income-shattering effects of disability. HEALTHSPAN measures the extent of each personal and business insurance need, sets a priority on each, then constructs a program of income replacement insurance to provide the best overall coverage. Our HEALTHSPAN contracts are so flexible and contain so many built-in safeguards that they can be altered to meet changes in family and business circumstances, no matter when they occur. Loss of insurability, which can undermine plans for income replacement protection—and inflation, which can cripple the value of coverage—have been eliminated as threats under the HEALTHSPAN system. HEALTHSPAN does a total job—in sickness and in health.

LIFESPAN®

LIFESPAN, Monarch's new development in the complex world of financial planning, is a fully computerized system—and is perhaps the most advanced system of its kind for creating programs of Lifelong Financial Security for income-earners and their families. It protects against *all three* of the great income-destroyers: disability, death and old age.

LIFESPAN constructs programs not only for present needs but also for those of the unforseeable future. The latter is made possible by the extreme flexibility of our policy contracts. Our LIFESPAN system is so responsive to change that not even loss of insurability and the erosive effects of inflation can disrupt the attainment of Lifelong Financial Security. This goal has been little more than a hope for most American families. Now it can be a reality.

Monarch Life and Springfield Life Insurance Company, a Monarch affiliate, span the entire nation with a huge network of full-time agents, independent agents and brokers. Over 5,700 representatives daily go about the job of providing Lifelong Financial Security for hundreds of thousands of income-earners and their families.

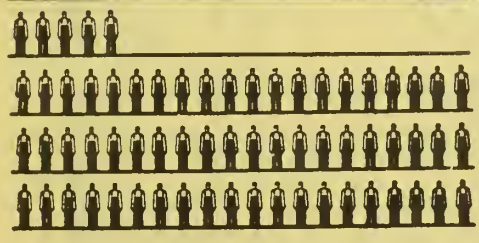
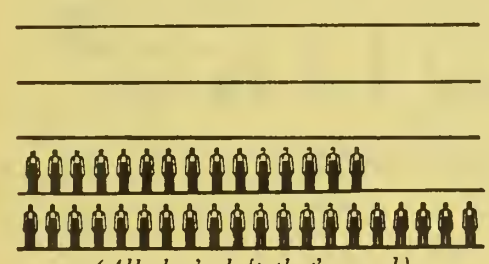
CITY DIRECTORY ADVERTISERS HAVE MORE FUN!

(THEY MAKE MORE MONEY.)

HOW MANY CHANGES IN A YEAR?

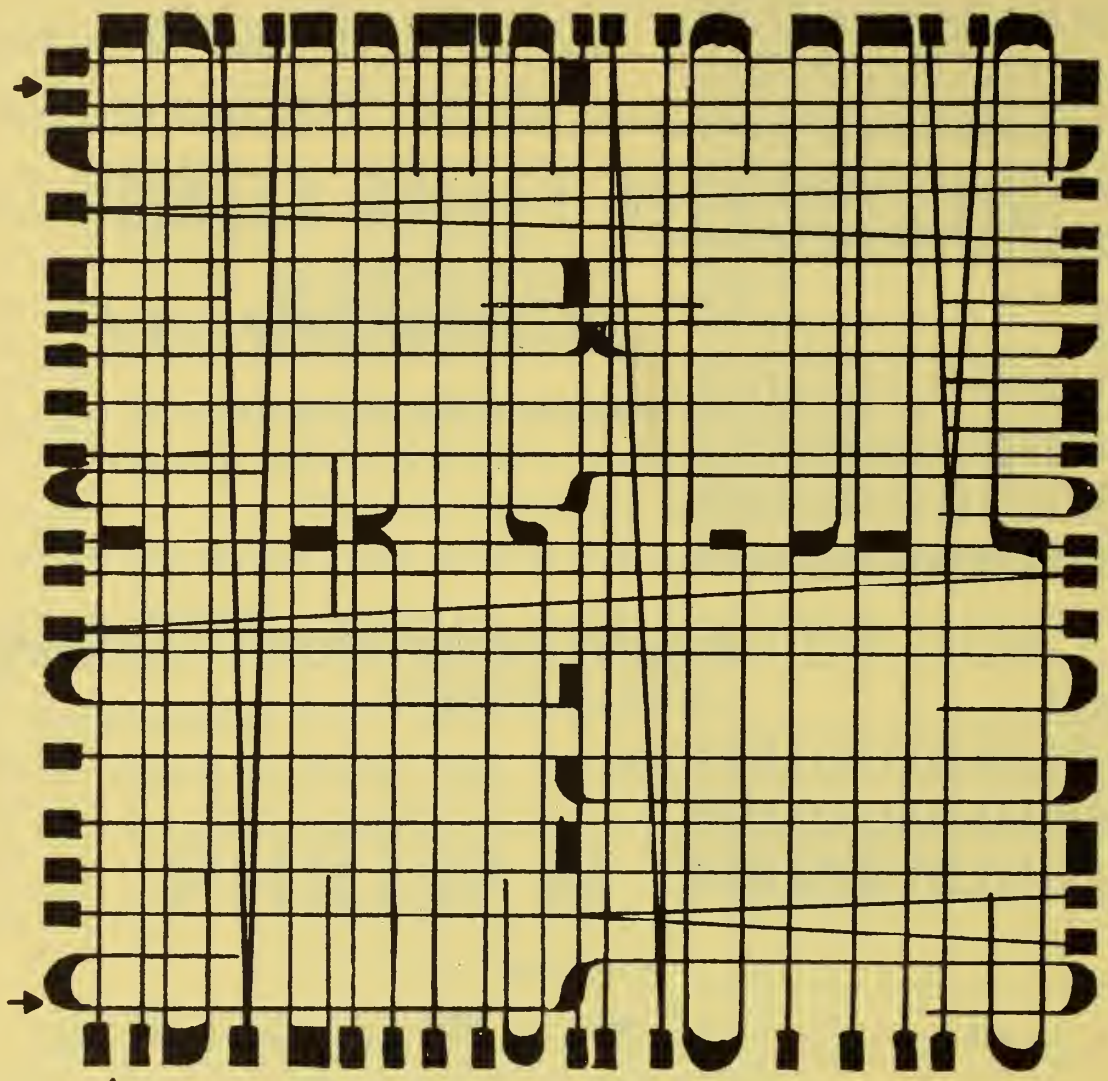


Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.



(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

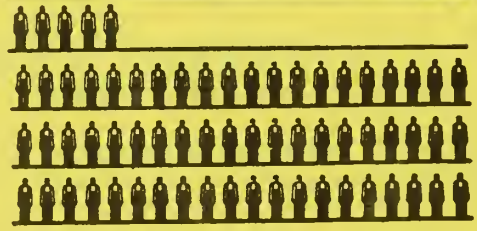
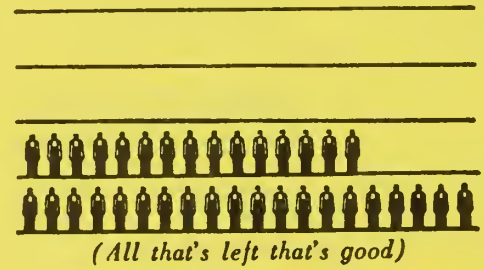
HOW MANY CHANGES IN A YEAR?



Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted.*

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore –

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

Act now! Arrange for your Ad to appear in our next edition
